

MB62 Mounting Bracket

Used for mounting bi-static microwave links such as models 300B, 310B or 316, and mono-static transceivers such as models 375C or 385. The bracket is zinc plated and fits a standard, 4.0 inch (101mm) O.D., mounting post. The swivel assembly allows for a 20 degrees of angle adjustment. The plate has additional holes for optional mounting and use of 2.5 inch or 3.5 inch U-bolts (not supplied). The unit weighs approximately 2.5 lbs. (1.13 kg).

Includes mounting plate, 4.0 inch U-bolt w/nuts and swivel assembly with nuts and washers for easy sensor mounting and alignment.
